

## TWO CHILDREN DIE IN A FIRE

Little House Near Smelter Burns Thanksgiving; Father is Rescued.

Two little Mexican children played about the home of their father, Angel Munoz, near the smelter Thanksgiving afternoon. The father had been too ill to work and the mother was away from home seeking work to support the family of six.

Fire caught in the flimsy roof of the little house and it was with difficulty that the sick man was rescued from the flames. The neighbors assisted him to get out of the house but nothing was known of the little children being in the house until their charred and blackened bodies were found in the ruins of the house.

One of the children, little Jesus, was four years old and little Angel, Jr., was three years. Two other children escaped. Corner Ware, of the smelter district, held an inquest Saturday morning and the little burned bodies were buried in the smelter cemetery.

## STRIKING MINER SHOT AT MORENCI

Refugee From Duncan Camp Causes Killing; Electric Light Plant Closed.

Luciano Martinez, a striking miner at Morenci, Ariz., was shot and killed by Casimiro Ramirez, Friday, according to a message received by Milton H. McLean, manager of the Detroit Copper company, who is a refugee from the strike zone.

According to Mr. McLean's message, Ramirez was living at the refugee camp at Duncan, Ariz., and had gone to Morenci to visit friends. Some former acquaintances are said to have seen him on the streets and to have followed him to the home of Antonio Spezia, where Mr. McLean says the house was surrounded. Ramirez is said to have fired through a window, the bullet striking Martinez and killing him instantly. No details as to the shooting were given in Mr. McLean's message, and it is not known whether Ramirez escaped to the Duncan refugee camp after the shooting or was arrested.

**Light Plant Closed.**  
Clifton, Morenci and Metcalf were without electric lights Friday night as the result of the operatives at the Clifton electric light plant refusing to continue working without being paid. This advice was received Saturday morning by the operators, who are living in El Paso.

The electric light plant is a part of the Arizona Copper company's plant at Clifton and the strike followed the refusal of manager Norman Carmichael, who is in El Paso, to pay the men employed by the plant except with a check marked "paid under protest." Sheriff Cash is said by Mr. Carmichael to have sent him a bill for the labor employed in keeping the electric light plant in operation. According to Mr. Carmichael, the bill showed more men at work than when the plant was under the direct control of the Copper company. The bill was paid under protest, the check to cover the wages of the operatives at the plant being marked "paid under protest." It was returned to Mr. Carmichael, he says, because of this marking.

**Employed by Federation.**  
The men in charge of the plant were not employed by me or by my company, but by Sheriff Cash and the Western Federation of Miners, said manager Carmichael Saturday morning. When Sheriff Cash sent the bill for operating the plant to me recently, it showed an excess of employees over former pay rolls when we were in control, and for this reason, I paid the amount of the bill under protest. The sheriff returned the check to me and demanded that I pay the men on his certification of their time. This, my company declined to do, because the men are employed by the sheriff and the Federation and not by the Arizona Copper company.

Thursday some of the electric light plant employees telephoned to cashier J. J. Cooper, of the company at Clifton and demanded their money. He explained why the company's check had been so marked and told the men that it had been refused. The strike followed.

## GIBBONS CAN'T ENCOURAGE FORD

Cardinal Fails to Join the Jitne Peace Plan For Europe.

Baltimore, Md., Nov. 27.—Henry Ford, the Detroit manufacturer, called upon cardinal Gibbons today, but although the cardinal devoutly echoed Mr. Ford's hopes for a successful culmination of his peace trip to Europe by Christmas, he was averse to giving it his formal approval.

He said he felt there were too many formidable difficulties in the way. Mr. Ford asked cardinal Gibbons to suggest names of prominent persons whose interest he thought could be enlisted, but the cardinal said he preferred to leave that to Mr. Ford's own judgment.

Upon leaving the cardinal, Mr. Ford said he was going to Philadelphia, where he had a dinner engagement with John W. Wamaker.

**Governor McDonald Invited.**  
St. Louis, Nov. 27.—Governor W. C. McDonald stated Friday night that he had received an invitation from Henry Ford to accompany the peace party which Mr. Ford is to take to Europe. The governor said that he had not replied to the invitation, but would not like to give a positive "yes" or "no" answer at this time to the question whether he would go on the trip, but that he had not decided how it would be possible for him to do so.

The bill was paid under protest, the check to cover the wages of the operatives at the plant being marked "paid under protest." It was returned to Mr. Carmichael, he says, because of this marking.
